

Allowing LPFM stations to have priority over current FM stations will rob the airwaves of one of its most valuable resources, truth and encouragement. I am referring to the K-LOVE radio network. K-LOVE provides vital resources to local communities across the nation meeting such needs as social assistance, information on recovery programs, a vital care ministry for those in need. It promotes healthy family values and equips dads, moms, and kids to be a positive influence in their families and in their communities. If you allow this network to be replaced by another radio station which embodies the depraved values all too prevalent in society today, you would only be contributing to the moral decay of the nation. The message sent through the music, ministries, newscasts, and attitudes of the staff at K-LOVE builds up local communities and encourages positive values such as love, forgiveness, honesty, integrity, faithfulness, selflessness, and compassion; values sorely lacking today. I urge you to not fix what isn't broken - be part of the solution for society's ills, and not contribute to the problem. May God grant you wisdom in this decision.
